© 2017 Henry Schein, Inc. No copying without permission. Not responsible for typographical errors. Note: Participating in a promotional discount program (e.g., points, discount redemptions or other special awards) is only permissible in accordance with discount program rules. By participation in such program, you agree that, to your knowledge, your practice complies with the program requirements. **For HS promotions:** This promotion offers a bundled discount. The cost of any "buy/get" (or "no charge") items is a discount applied to your other purchases on the same invoice. The reportable value (unit price) of the "no charge" item will be identified on the invoice. To calculate the applicable discount on the other items on the same invoice, divide the total value (unit price(s)) of any no-charge item(s) by the total value (extension price(s)) of all other items purchased on the same invoice, and apply the resulting percentage equally to each item to determine net prices. **For manufacturer promotions:** The prices stated in the invoice or statement may reflect a discount or be subject to a rebate. You must fully and accurately report this stated discount price, or if applicable, any net pricing, after giving effect to any rebates, to Medicare, Medicaid, Tricare and any other federal or State program upon request by any such program. Accordingly, you should retain these records. It is your responsibility to review any agreements or other documents applicable to these prices to determine if they are subject to a rebate.
