Advancing the Legacy

Innovation based on our proven legacy of market-leading support and trusted handpieces

About Midwest

For nearly 100 years, dental professionals have relied on Midwest as a trusted partner, providing personalized service and solutions tailored to their specific practice needs. An established history and legacy of clinically proven products, along with exceptional education, training, and customer responsiveness, makes Midwest your ideal choice for innovative and dependable electric instruments.

Electric Handpieces

Designed to provide precision and control at your fingertips, Midwest offers electric systems that allow clinicians to apply their skills to the fullest with confidence, accuracy, and efficiency. Go Midwest Electric for more power, more torque, less noise, and less weight.

Education

Midwest offers a curriculum of education courses in a variety of formats, including onsite, online, and on location at the new Dentsply Sirona Academy, outfitted with Midwest handpieces and attachments.

Support

Your Dentsply Sirona Midwest Specialist partners with your practice, knows how you prefer to do dentistry, and serves as a trusted advisor for you and your team.

Innovation

With a nearly 100-year history of technological innovation and leadership, Dentsply Sirona Midwest continues to be a trusted and reliable manufacturer of high-speed air, low-speed air, and electric handpieces, motors, and attachments.

Service

MIDWEST® AIR REPAIRSM Service expedites handpiece repairs to help keep your practice running smoothly, efficiently, and productively.

Midwest® E Electric Handpieces

Midwest® E Electric System

	Midwest® E Electric System Controller, Hose and Motor
Part No	876000
Motor Weight (g)	59
Motor Body Length (mm)	32
Nose Length (mm)	23
Torque (Ncm) max	3.0
Control Interface	LCD Color Touchscreen
Motor Type	Brushless
Lighting	Adjustable LED
Connection	Standard E-Type
One-Touch Presets	8 (4 endo, 4 resto)
Remote Screen Option	Yes
Warranty	3 years

Midwest® E Pro Series

	Midwest® E Pro 1:5 High Speed Attachment	Midwest® E Pro 1:1 Low Speed Attachment
Part No	875105	875110
Gear Ratio	1:5	1:1
Sound*	59 dBav ± 4	59 dBav ± 4
Outer Sleeve	Titanium	Titanium
Head shell	Stainless Steel	Stainless Steel
Head Size (Diam. x Ht.)	8.7 x 14.6	8.7 x 12.4
Weight (g)	≤66	≤66
Spray Ports	4	1
Light	Yes	Yes
Bearing Type	Diamond-like carbon-coated (DLC) ceramic	Steel
Motor Type	Short nose (23mm) only	Short nose (23mm) only
Warranty	3 years	3 years

Midwest® E mini

	Midwest® E mini 1:5 High Speed Attachment
Part No	875101
Gear Ratio	1:5
Sound*	59 dBav ± 4
Outer Sleeve	Titanium
Head shell	Stainless Steel
Head Size (Diam. x Ht.)	8.7 x 12.9**
Weight (g)	≤70
Spray Ports	1
Light	Yes
Bearing Type	Diamond-like carbon-coated (DLC) ceramic
Motor Type	Short (23mm) or long nose (32 mm)
Warranty	2 years

Midwest® E Plus Series

	Midwest® E Plus 1:5 High Speed Attachment	Midwest® E Plus 1:1 Low Speed Attachment	Midwest® E Plus 6:1 Endo Attachment	Midwest® E Plus 1:1 Straight Attachment
Part No	875205	875210	875220	875230
Gear Ratio	1:5	1:1	6:1	1:1 S
Sound*	59 dBav ± 4	59 dBav ± 4	59 dBav ± 4	59 dBav ± 4
Outer Sleeve	Titanium	Titanium	Titanium	Stainless Steel
Head shell	Stainless Steel	Stainless Steel	Stainless Steel	N/A
Head Size (Diam. x Ht.)	8.7 x 14.6	8.7 x 12.4	8.7 x 12.4	N/A
Weight (g)	≤70	≤70	≤70	≤90
Spray Ports	4	1	1	1
Light	Yes	Yes	Yes	Yes
Bearing Type	Ceramic	Steel	Steel	Steel
Motor Type	Short (23mm) or long nose (32mm)	Short (23mm) or long nose (32mm)	Short (23mm) or long nose (32mm)	Short (23mm) or long nose (32mm)
Warranty	2 years	2 years	2 years	2 years

Midwest® E Electric System

Go Midwest for One-Touch Control

Ideal for restorative and endodontic procedures

The powerful and autoclavable Midwest E Motor weighs in at a mere 59 grams and measures only 1.25", making it one of the smallest and lightest electric motors offered today.

Attachments are available in high-speed, low-speed, endodontic, and straight configurations. They weigh between 66 and 90 grams, making them among the lightest in the industry.

Midwest® E Electric System

Go Midwest for More Power, More Torque, Less Noise, and Less Weight

Customized programming including speed, torque, and light operation

Has four user-defined presets in both "Prep" and "Endo" functions

Is easily customizable with 28 pre-programmed gear ratios and two user-defined ratios

Endo functionality includes user-defined torque limits and three auto-reverse options

Allows for seamless integration into existing dental units with detachable faceplate and remote mounting kit

Midwest® E Plus Series

Go Midwest for Precision and Control at Your Fingertips

Midwest® E Pro Series

Go Midwest for Smaller Size and Longer Life

Apply your skills to the fullest with confidence, accuracy, and efficiency

The precision and control provided by the Midwest E Plus Electric Handpiece Attachments allow you to perform a broad range of procedures with optimal power, flexibility, and ease, case after case.

Smaller size, longer life

Lighter design and smaller size delivers the necessary balance of power and control, while diamond-like carbon-coated bearings increase longevity.

Midwest® E Plus 1:5 High Speed Attachment

Small head improves access
Titanium shell reduces weight
Ceramic head bearings extend durability

Midwest® E Plus 1:1 Low Speed Attachment

Titanium shell reduces weight
Smaller head improves access and visibility

Midwest® E Plus 6:1 Low Speed/Endo Attachment

Titanium shell reduces weight

Midwest® E Plus 1:1 Straight Low Speed Attachment

Stainless Steel shell increases durability

Midwest® E Pro 1:5 High Speed Attachment

Diamond-like carbon-coated bearings increase longevity
Three-year warranty reduces repair costs

Midwest® E Pro 1:1 Low Speed Attachment

Smaller head improves access and visibility
Diamond-like carbon-coated bearings increase longevity
Three-year warranty reduces repair costs

Full range of attachments

Fits short and long nose motors

Smallest and lightest design

Three-year warranty

Midwest® E mini

Go Midwest for Improved Access

Smaller head, better visibility

Designed for increased visibility and deeper access, Midwest E mini has a shorter head that allows for increased bur projection from the head.

Midwest E mini 1:5 High Speed Attachment

Shorter head allows more bur protrusion for deeper access and improved visibility

Design allows use with both short shank (16.5mm) and standard shank (19.0mm) friction grip burs

DLC ceramic bearings and single-port water spray

Midwest® E Electric System

One-Touch Control

The balance of power and control

The Midwest E Electric Handpiece System features a touchscreen interface with separate menu screens for both preparation and endodontic procedure settings. With one-touch control, users have the ability to view and customize the attachment operation from that screen.

Preparation Setting Mode

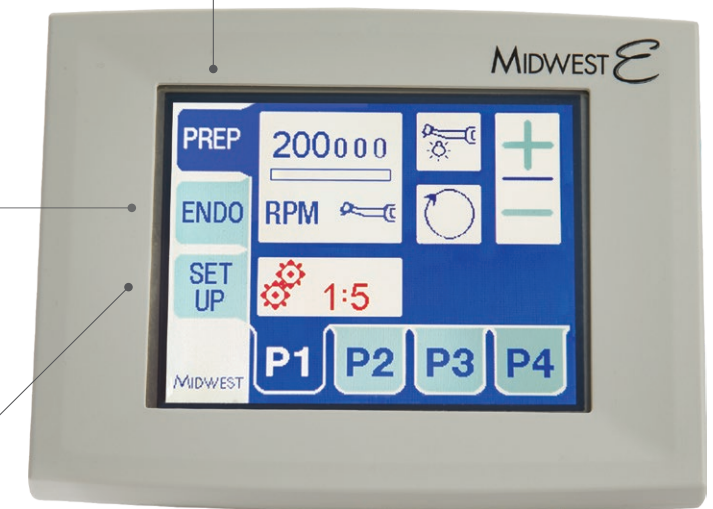

Speed, attachment gearing, light operation, and bur direction selector displayed on one screen for viewing and adjustment.

Endodontic Setting Mode

Allows user to set the appropriate manufacturer-defined speed and torque setting for endodontic files.

Setup Mode

Allows user to calibrate the system, set screen standby mode, and adjust light and sound settings.

Smallest head

Fits short and long nose motors

One-Touch Navigation

Easy and intuitive

Adjustable LED lighting

Enhances visibility

User-defined presets

Four user-defined presets in both prep and endo modes

Go Midwest for the personalized service, dedicated Specialists, and instruments you need to provide the best possible care.

As a leader in the development of rotary instruments and handpieces, with nearly 100 years of innovation in high-speed, low-speed, and electric solutions, Dentsply Sirona Midwest and your Midwest Specialist understand how important the right instruments are to achieving the best results in all dental disciplines.
