Reliable performance, impressive value.

You know exactly what you need for your practice. That's the inspiration behind our signature line of A-dec handpieces and motors.

Enjoy the thoughtful design and quality craftsmanship you expect, backed by legendary customer service and support. This singular line of motors and attachments is an ideal solution for your essential, day-to-day procedures. And an easy choice to make when you're selecting your A-dec chair, lights, and delivery.

You earn your patients' trust with every treatment. And we'll earn yours every time you reach for an A-dec handpiece.

CLASS A A-DEC LOW-SPEED AIR COLLECTION

A-dec low-speed air handpieces offer durability and reliable performance. Their sleek, lightweight design ensures an entirely comfortable balance in your hand. High-precision gears provide quiet operation and reduce uncomfortable vibration. The extra-slim head and body improve visibility as you work, even in difficult-to-access areas of the oral cavity.

A11

Head Size	Ф9.6mm×13.5mm	
Warranty	1 year	

Features

•Debris defense system
•Ball bearing
•Autoclavable

Designed for long life.

The debris defense system on A-dec low-speed air handpieces automatically reduces the entry of oral fluids and contaminants into the handpiece head to prolong the life of the bearings. The prophy handpiece features a paste seal system to reduce dust and polishing paste debris from entering the handpiece; and a special rotor coating prevents potential breakage caused by surface abrasions from the polishing paste.
